

INVOLV INTRANET LOOKBOOK

Explore some of the best Involv intranet homepage designs

✓ Rich optimization options

Design the intranet of your dreams – with ease. Choose one of the ready-made templates and colour schemes. Or change the colours, fonts and logo to match your corporate identity and ensure a consistent look and feel across all your assets.

✓ Build pages fast, without IT support

Involv makes it easy for everyone to create pages without any coding skills. Simply choose from an extensive component library. Select the template you want. Move components on the page by dragging and dropping.

✓ Responsive intranet and mobile app

Involv is built responsive for optimal use on every device. The Involv mobile app gives your employees access to the company intranet no matter where they work. The app is fully brandable. You can even set your company logo as the app icon.

Tuiswerken: 9 tips om efficiënt te blijven

The screenshot shows a corporate website interface with a dark blue header and a white main content area. The header includes a logo for 'YOUR COMPANY' with a lightbulb icon and the tagline 'YOUR TAGLINE'. The navigation menu contains links for Home, News, Departments, Who is Who, Stories, and a Search icon. Below the navigation is a large hero image of a hand holding soil with a small plant growing from it. A text overlay on the hero image reads: 'Our commitment to the environment. As a major energy player, we have made our commitments to the environment and community engagement an integral part of our strategy.' Below the hero image is a 'SHORTCUTS' section with seven icons: My page, Compliances, Projects, Create ticket, Lunch, Analytics center, and HR questions. Below the shortcuts is a 'NEWS' section with two image thumbnails, the first showing a hand holding a plant. To the right of the news is a 'WHO IS WHO' section with a search bar.
